

STILLAGE CAGE

- 40 x 40 square tubular steel construction
- 75 x 50 mesh is fitted to each panel, to safely contain the goods within the unit
- Locks are positioned flush with all body panels and operate naturally under the force of gravity
- The gravity locking system allows operator to assemble or disassemble the unit without the use of tools or mechanical devices
- Units are available in an anti-corrosive Dura-gal® or high quality Blaze Blue powder coated finish
- Corporate colouring for individual identification is also available upon request
- Each unit has the capacity to accommodate 1500kgs when laden and be safely stacked 4 high
- The unit has removable front, rear and side panels which provide complete uninhibited access to the pallet
- The units are collapsible, making them easy to store and transport

PALLET CAGE

- Strong tubular steel construction makes it an extremely sturdy storage and transportation unit
- Rods are fixed to each panel, at no greater than 125mm centres to contain the goods within the unit
- All units have a Gravity Locking Device which requires no tools for assembly or disassembly and also acts as an added safety feature
- Units are available in an anti-corrosive electro zinc plated or high quality powder coated finish
- Corporate colouring for individual identification is also available upon request.
- Each unit has the capacity to accommodate 1000kgs and can be stacked 4 high
- Half drop down Allows access to the goods whilst pallet cage is stacked
- Gravity Locking System allows the pallet cage to accommodate up to +/- 20mm variation in the size of a pallet
- The units are collapsible - 10 units take the same area as 1 fully assembled unit, saving valuable space when not in use.
- Accessories for this pallet cage include partitions, intermediate shelves and security lids - please ask for details

*Please note pallet not included
